

## SHE SAYS OH

Borslien, Villanueva

Say you believe in true love  
You believe that you'll just know  
You believe the weathergirl  
You say trust, and she says oh

She gonna rattle you  
Quake you like the earth  
She gonna master you  
Shake you like your first

She says Oh  
She says Oh

Say you believe in peace  
You believe in the rhythm of old  
You believe some things just happen  
And that you have no control

She can take you away  
and then bring you home  
She can break your faith  
And then sing you stoned

She says Oh  
She says Oh

*(bridge)*

It's on her lips  
Try to kiss it  
You see it in her swaying hips  
You can't hear it  
But you smell it on her mind  
You can't touch it  
It's in her cry

*(refrain)*

She says Oh  
She says Oh  
She says Oh  
She says Oh  
Oh!

## FEED THE FIRE

Borslien

I shut the door, Turn out the light  
But there's a spark I can't hide  
I hold my tongue, Hold it tight  
But I don't want to speak or breathe or sigh

*(chorus)*

Feed the fire  
Feed the fire  
I'm hypnotized by your flames of love  
While the slivers of my life go up

I feel the choke, You writhe and turn  
I'll cut right through the smoke with my words  
You're out of control in the dying wind  
You want to make me breathe on your smoldering heart to let you live

*(chorus)*

Feed the fire (Watch it rise)  
Feed the fire (Burning wild)  
But I won't stand around mesmerized  
While you burn the flowers of my life  
Feed the Fire!

You make me shiver  
You make me quiver  
I know you're asking  
But you can't have it  
I'll lay so quietly  
And every time I breath  
I'll whisper soothing charms  
I'll slip right through your arms  
Like water (you don't want me)  
I know you want her  
With her money tree to burn  
So let her, let her, let her

*(chorus)*

Let her feed your fire (Watch it rise)  
Feed your fire (Burning wild)  
But I won't stand around mesmerized  
Watch you burn the flowers of her life  
Feed the fire  
Feed the fire  
Feed the fire. . . .

## ENDLESS BLUE

Borslien, Villanueva

Pain, aren't you pretty today  
Gray wants to push you away  
Wait, while I give you a name  
Endless blue  
Endless blue

Babe in the woods of my soul  
Taste from the cup that I hold  
Raise up your silence of gold  
Echoed through  
Endless blue

Broken hearts and broken lives  
Shattered in a chaos rhyme  
Echo in the love we try to prove

Sun, put a smile on my face  
Come to my butterfly place  
Run with my arms full of grace  
Into you  
Endless blue

Broken wings and broken minds  
Clouds that break up for the sky  
Can you call the butterfly a fool?

*(instrumental)*

Broken wings and broken minds  
Clouds that break up for the sky  
Can you call the butterfly a fool?

Endless blue  
Endless blue  
Endless blue  
Endless blue. . . .

## WAITING FOR THE SUN TO SHINE

Just about all my money's been spent  
Waiting for the sun to shine  
I'm paying the rent with a big rain check  
Waiting for the sun to shine

I pray for sleep on a downy-soft bed  
Waiting for the sun to shine  
But I won't rest 'til I see you again  
Waiting for the sun to shine

*(Refrain)*

And I  
I can't wait forever  
I can't wait forever  
Wait for the sun to shine  
Wait for the sun to shine

Inside feels like a cold desert night  
Waiting for the sun to shine  
I warm myself by your fugitive fire  
Waiting for the sun to shine

*(Refrain)*

How much longer?  
How much longer? (x 2)

Dust collected on my heart today  
Waiting for you to be mine  
Maybe the rain will wash it away  
Waiting for the sun to shine

*(Refrain)*

Waiting for the sun to shine  
Shine!  
Shine!  
Shine!  
SHINE!.....

## GONNA GET ME SOME

Borslien, Hagadone

You walk right in  
You've got a thorn in your side  
I see you bleeding  
I can't believe my eyes!  
I need your love - Gonna get me some

'Cause I've been waiting all my life, it's true  
(all my life, it's true)  
For a lover who can shake my blues  
I need your love - Gonna get me some

You're so very, so very shy  
And I'm extraordinarily high  
But I don't need potions, pills or wine  
You set my soul on fire.....

So what's your story?  
I can almost hear the lines  
Beneath your chatter  
And your charming little smile  
You need my love - Gonna give you some

So come closer  
Let me touch you where it hurts  
I'll kiss away your worries  
Satisfy your thirst  
You need my love - Gonna give you some

*(Flute solo)*

You're so very, so very shy  
And I'm extraordinarily high, high, high  
But I don't need potions, pills or wine  
You set my soul on fire  
You're all I need tonight....  
Ooooo, I need your love

You're so disarming  
Don't make me crawl  
Don't make me beg  
Please don't make me beg  
'Cause I can make your summers freeze  
Turn your winters blazing hell.....

# TURN IT ON!

Borslien, Hagadone

When the day's infatuation goes  
Can't ask the sun to give any more  
I turn to you and ask you to turn me on

When my body's off and my heart is closed  
I need love to light my soul  
I turn to you and ask you to turn me on

*(chorus)*

And this is your song  
Come on and sing along  
This is your song  
Turn it on

When I'm feeling bound to someone's lies  
You dance around, untie, unwind  
And turn the truth to fly  
Turn me on

When living feels like doing time  
I'll work for your determined smile  
Turn the stars my way  
Turn me on

*(chorus x 2)*

*(platform)*

I'm gonna get your attention  
I'm gonna get my way into heaven  
I'll turn it up to 10 if I have to  
And then I'll call your bluff  
Say enough's enough  
Or we can play it rough, so tough, I say

Turn it on! (It's your song)  
Turn it on! (Sing along)  
Turn it on! (Dance and dance)  
Turn it on! (Make romance)  
Turn it on! (It's your song)  
Turn it on! (One more time, now)  
Turn it on!

## FUNNY WAY

Borslien, Villanueva

Tight lips make a tight smile  
your angry words can hide behind  
I never really know what you're thinking  
But it must some kind of serious drinking  
that makes you want to reach out and smack me  
Baby, why you want me to crack?

*(Chorus)*

Oh you love me, you say  
You got a funny way  
You love me, you say  
You got a funny way  
You got a funny way, babe  
You got a funny way  
You got a funny way to say you love me

Point your finger right at me  
as I lay here on my back  
Just like you, I'm blue, and black, and aching  
But there's no point in making silly accusations  
I've got no potions, pills, or incantations  
So baby, where's your charm?

*(Chorus)*

You want to send me to the moon  
I can go that far  
There's nothing left in me  
for your love to tear apart  
Nothing left to take  
Nothing left to break  
Nothing left to say  
Except you love me

Babe, you got a funny way  
to say you love me, love me  
You got a funny way  
Mm hmm you love me  
Why don't you show my you love me?  
You got a funny way  
to say you love me  
You got a funny way
